## Apple iPad Oceans App by Air Sea Land Inc, Available for World Oceans Day

*Conservation Aware Apple iPad App Showcases Seas*

NEW YORK--(BUSINESS WIRE)--Air Sea Land today announced the updated release of its stunning new [aquarium app for Apple's iPad and iPad 2: SeaHD](#). "Remarkable new underwater footage is now available for the first time ever on the iPad," says Anthony Lenzo owner of Air Sea Land and creator of SeaHD. "We've included creatures such as the Pygmy Seahorse which even experienced divers rarely see. It is the size of a child's fingernail and a true wonder to look at." The SeaHD iPad app enables users to view underwater footage from places across the globe. The app includes footage from over 20 unique locations and users can expand their dive point collection with 2 new in-app purchase packs of 10 sites each. "We've also added an export feature," explains Lenzo, "now you can export the underwater footage and utilize the video with iMove or other video editing apps."

Apple's AirPlay feature is also integrated, which allows users to stream footage directly to their Apple TV. People can view real dolphins, sharks, eels, clown fish and other species. Customers with the iPad 2 can also connect with the iPad 2's HDMI output. Optional popups allow users to read about the marine environment they're viewing along with information on conservation efforts.

For [World Oceans day](#) the [SeaHD](#) app is on sale for 99 cents. Features Include:

- AirPlay Enabled
- Export Video Clips
- SEAquence: Create Your Own Playlist
- Music: Ambient Soundtracks or Select From iTunes
- Multiple Locations: Dive Points Around the Globe
- Fish Identification: Learn Facts About Species for [Oceans Day](#)
- Stunning HD Footage From Expert Divers
